### **Building Healthier Workplaces Team**

This team of dedicated volunteers successfully designed, developed and organized a halfday conference entitled “Building Healthier Workplaces”. Catherine and her team of co-volunteers dedicated their time over several months to bring the Conference to life. They exceeded their goal of promoting awareness and providing information on issues related to mental health in the workplace, and to HR and Occupational Health professionals. The conference was so successful that \$14,000 was donated to support the Royal Ottawa Health Care Foundation. Preparations are well underway for a second conference on “Building Healthier Workplaces” to be held later this year.
